Professional Summary

Health policy researcher, project manager, and MSPH student (expected May 2026) specializing in policy analysis, program development, and statistical software, with experience across the CDC, academic medical centers, and clinical operations. Passionate about building programs that advance equitable, patient-centered healthcare delivery.

Education

Rollins School of Public Health, Emory University

Atlanta, GA

Master of Science in Public Health, Health Policy and Management

Expected May 2026

- Certificate in Data Science
- GPA: 3.93/4.0

Southern Methodist University

Dallas, TX

Bachelor of Science, Health & Society; Bachelor of Science, Biological Sciences

Graduated May 2022

- Minors: Human Rights, Chinese
- GPA: 3.79/4.0

Core Skills

Programming Languages: R, SAS, STATA, Bash, Python

Data and Research Tools: PowerBI, Tableau, R Shiny, Markdown, Git, Docker, Make, renv, REDCap, Qualtrics, Covidence, ArcGIS, Excel, Canva

Professional Skills: project management, program development and implementation, data analysis, policy analysis, applied machine learning, stakeholder communication, patient advocacy, motivational interviewing

Certifications

Board-Certified Patient Advocate (2024); CITI Social & Behavioral Research Certificate (2024); CPR (2024)

Healthcare Experience

Grady Health System & Emory Medicine – Clinical & Research Program for Psychosis

Atlanta, GA

Program Development and Project Manager

August 2025-Present

- Building monitoring and evaluation plans, including KPIs, dashboards, and SOPs, using Epic extracts to track access, capacity, and outcomes and deliver concise reports for leadership and quality improvement
- Establishing organizational structure across four psychosis clinics (Clinical High Risk, Youth & Family Tree, Project ARROW, PSTAR) to streamline referrals, role clarity, and shared services
- Designing and piloting needs-assessment tools for clients, families, clinicians, and community partners; summarizing findings to guide service expansion and resource allocation
- Coordinating development and rollout of new programming for first-episode and long-term care, including protocols, implementation timelines, literature reviews, and cross-team collaboration
- Producing org charts, content maps, and program materials to support grants, advocacy, and community partnership outreach; reviewing EHR and AI extracts to inform operations

Marcus Autism Center – Children's Healthcare of Atlanta

Atlanta, GA

Implementation Science Graduate Researcher, ACCESS Lab

May 2025-Present

- Building a reproducible R Markdown pipeline and custom metadata codebook to clean, label, and analyze multi-state survey data on Family Navigation (FN) practices in early intervention
- Leading TIDieR-framework fidelity analyses of FN delivery across providers and settings
- Coordinating implementation of Transitioning Together, a family support program for autistic teens and caregivers, including recruitment materials, fidelity tracking, and cross-team collaboration
- Producing publication-ready visualizations, analytic documentation to inform manuscripts, grant proposals, pilot program adaptation, and stakeholder dissemination

Lantern Healthcare

Oncology Case Manager

Dallas, TX

June 2023-August 2024

- Coordinated care and support for 200+ oncology patients and caregivers by partnering with oncologists and nurse navigators to arrange referrals, obtain medical records, facilitate second opinions at NCI-designated facilities, and connect families with travel funding and financial assistance.
- Built referral relationships through patient outreach, marketing to local providers, and handling inbound calls.
- Analyzed claims data for diagnostic and procedural indicators and developed utilization reports for leadership
- Created patient needs assessments and bilingual marketing, registration, and educational materials
- Conducted implementation testing for EHR and clinical documentation software

Surgery Case Manager

May 2022-August 2023

- Served as a HIPAA-authorized patient advocate for 600+ patients undergoing elective surgeries by interfacing with doctors, facilities, insurance, and other healthcare stakeholders
- Interfaced with 30-50 patients daily to address and document progress, needs, questions, and barriers to care
- Educated patients on procedure expectations, benefits, and health insurance coverage
- Coordinated referrals, appointments, prior authorizations, and travel funds and bookings for patients

Children's Medical Center Dallas Emergency Room (ER)

Pediatric Medical Scribe

Dallas, TX

January 2019-February 2020

- Documented histories, physical exams, treatment plans, test results, and clinical updates into electronic charts in Epic EHR software for 3500 pediatric ER patients in compliance with HIPAA standards

Research Experience

Centers for Disease Control and Prevention (CDC)

Atlanta, GA

Health Policy Research Fellow – Division of Bacterial Diseases (DBD)

September 2024-May 2025

- Supported the development of national pneumococcal vaccine policy by conducting rapid and systematic literature reviews using Covidence to evaluate global evidence on vaccine efficacy, safety, cost-effectiveness, and implementation across diverse health systems
- Translated complex research findings into policy-relevant briefs to inform the Advisory Committee on Immunization Practices (ACIP) Work Group's deliberation
- Working with senior epidemiologists to design and prioritize vaccine strategy

Rollins School of Public Health, Emory University

Atlanta, GA

Graduate Researcher, MSPH Thesis

August 2024-Present

- Conducting a multi-state analysis of 400+ autism insurance mandates and their association with behavioral treatment receipt among privately insured children
- Using Stata, SAS, and R to clean, merge, and analyze multi-year national survey and state policy data; construct policy exposure variables; and produce policy-relevant tables, figures, and written findings

U.T. Southwestern Medical Center

Dallas, TX

Health Policy and Ethics Research Fellow

April 2020-October 2020

- Developed an open-source, online policy library of national professional statements for the ethical use of advanced technology in end-of-life care, for use in clinical ethics consultation and developing hospital policy
- Compiled, annotated, and summarized 100+ policy documents using REDCap clinical research database software
- Presented findings to the clinical ethics committees of Dallas Parkland Hospital and Clements University Hospital, and at the annual conference of the American Society of Bioethics and Humanities

Southern Methodist University

Dallas, TX

Biology Research Assistant

January 2019-January 2021

- Designed assays for nematode model *C. elegans* to study combinatorial genetics and gene regulation in single neurons of living animals
- Produced and observed *C. elegans* mutant phenotypes using molecular genetic techniques including worm culture, CRISPR/Cas9, PCR, and behavior assays (heat shock, competition, thrashing)

Publications and Presentations

- Lee J. (2026). *Autism Insurance Mandate Generosity and Behavioral Treatment Use in Privately Insured Children with Autism Spectrum Disorder*. Master's thesis. Emory University. Deposited in Emory Electronic

Theses and Dissertations.

- Kamitani E, **Lee J.**, Gebremichael F, et al. (2026). *Rapid Review of Pneumococcal Conjugate Vaccination During Pregnancy: Evidence From Two Randomized Trials*. Abstract pending CDC clearance.
- Kobayashi M, Kamitani E, Gebremichael F, **Lee J.**, Colón Rivera J, Matias Rodriguez E, et al. (2026) *Pneumococcal Vaccine Safety and Immunogenicity after Allogeneic Hematopoietic Cell Transplant Recipients: A Rapid Review*. Abstract pending CDC clearance.
- Waford R, **Lee J.** (2026). *Post CSC Care: Critical Components and Considerations for Long-Term Care and Recovery*. Poster presented at the 2026 Congress of the Schizophrenia International Research Society (SIRS).

Community Service

myLife - Events Coordinator and Volunteer

August 2024-Present

Emory Autism Center, Atlanta, GA

- Fostered and participated in weekly one-to-one friendships between college students and adults with intellectual and developmental disabilities (IDD) in the Greater Atlanta Area
- Collaborated with campus organizations, local venues, and community members monthly to create inclusive and enjoyable experiences for adults with IDD

Special Needs Volunteer

May 2012-January 2024

Prestonwood Baptist Church, Plano, TX

- Created and led activities like weekly lessons, arts and crafts, sensory integration, and music therapy
- Communicated regularly with families/caregivers to understand and address unique needs of each child
- Adapted activities to accommodate various abilities, ensuring everyone could engage and participate

Prison Ministry Volunteer

September 2019-March 2020

Bridges to Life - Hutchins State Jail, Hutchins, TX

- Facilitated 14-week restorative justice programs for inmates at Hutchins State Jail to support rehabilitation
- Led weekly small group discussions on curriculum topics (such as Accountability, Confession, Reconciliation, and Forgiveness) and encouraged open dialogue from inmates about personal experiences
